

Hi, we're

greenhouse sports

Put simply, we put **game changing mentors** into the lives of young people facing poverty.

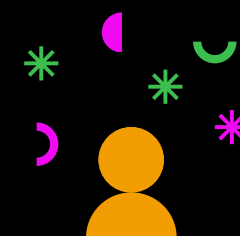

– WHY WE EXIST

One in five young people living in poverty believe their lives will amount to **nothing**.

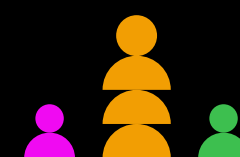

Poverty is choosing between buying food for dinner or turning the heating on.

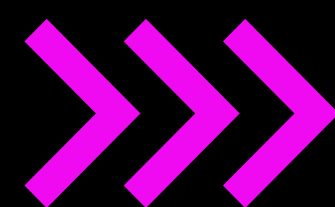

Poverty is going to school too anxious to learn.

Poverty is forcing young people to lose their youth and grow up early.

Poverty limits
opportunity &
denies hope.

– ABOUT US

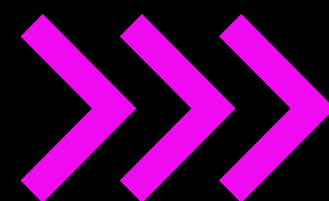

Over the last 23 years we have helped **over 60,000** young people unlock their magic potential across London and beyond.

How? Well, our Coach-Mentors are pretty special. They're expert sport coaches **AND** trained mentors.

They work full time in schools where communities are facing high levels of deprivation. Using sport as the hook, they use our evidence-based approach to build life skills and unlock the potential in young people.

"I never wanted to come to school – but once Greenhouse came along and started to encourage me, it changed everything. My coach has taken me to places I never thought I could go."

– THE DIFFERENCE

8500+ young lives are impacted every year

Coach-Mentors provide intensive support year on year. This consistency means they're often one of the biggest supporters in their life.

Attend up to 14 extra days of school annually

That's because of coach, of their team, of the self belief they now have. What we do can change the trajectory of an entire life.

1000's of hours of individual coaching and mentoring

The things our young people learn during their time with us – overcoming adversity, discipline, commitment – stick with them for life.

We can't do it alone. Do you believe in creating better futures?

Coach-Mentors, staff, donors, supporters, volunteers, young people all make our Team For Life.

Our Team for Life is waiting for you.

Together, we can remove the barriers that poverty places on education, wellbeing, and dreams. We all stand to gain from the powerful ideas and talents of young people when we bridge the opportunity gap.

**DO YOU
WANT IN?**
